12V to dual 28V inverter

Overview

DC-DC mini boost converter with wide input voltage range of 10V to 18V or 10-16V, designed to step up the input rated voltage 12V DC to 28V or 30V output voltage, rated current from 2A to 40A, compact and lightweight, waterproof and anti-shock protection.

DC-DC mini boost converter with wide input voltage range of 10V to 18V or 10-16V, designed to step up the input rated voltage 12V DC to 28V or 30V output voltage, rated current from 2A to 40A, compact and lightweight, waterproof and anti-shock protection.

EXTENSIVE COVERAGE: Protection for all your eligible products purchased from Amazon. (Note: Products used commercially or for a business are excluded) EXCEPTIONAL PROTECTION: Including malfunctions and failures, plus drops or spills for eligible portable items. PAST & FUTURE PURCHASES COVERED:.

Pricing (USD) Filter the results in the table by unit price based on your quantity. 28 V DC/DC Converters are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for 28 V DC/DC Converters.

Product is subject to a 10% tariff surcharge. Shielded horz. Product specifications for the V28B12C125BL Mini DC DC Converter. Order direct from Vicor, manufacturers of power components and systems.

DC-DC mini boost converter with wide input voltage range of 10V to 18V or 10-16V, designed to step up the input rated voltage 12V DC to 28V or 30V output voltage, rated current from 2A to 40A, compact and lightweight, waterproof and anti-shock protection. Affordable price DC-DC converter with.

Eaton's 28Vin, dual-output power solutions provide 2V to 28V outputs and feature six-sided EMI/RFI shielding. Aerospace and military DC/DC converters include the products previously supplied by Martek Power, Abbott Electronics and Sure Power 10 watts - 2v to 15v outputs 1.0" X 2.0", CB10D DC/DC.

DC-DC Converters convert a direct current voltage input into a different direct

current voltage output. They have essentially the same wattage rating on both the input and the output, minus switching losses. DC-to-DC converters can be mounted on- or off-board. They come in a variety of inputs.

12V to dual 28V inverter

I purchased one of these a few months ago for a van build, so I could use the 12v engine alternator to charge up my 25.6v lithium house batteries. It does the job, puts out a solid 40 amps, reading 1100+ watts on my battery shunt.

Mouser offers inventory, pricing, & datasheets for 28 V DC/DC Converters.

12VDC battery of vehicles as input power to 24VDC appliances as output load. How to choose the correct current for loads? For example, if the max current of your load device is ...

Product specifications for the V28B12C125BL Mini DC DC Converter. Order direct from Vicor, manufacturers of power components and systems.

DC-DC Converters convert a direct current voltage input into a different direct current voltage output. They have essentially the same wattage rating on both the input and the output, minus ...

DC-DC mini boost converter with wide input voltage range of 10V to 18V or 10-16V, designed to step up the input rated voltage 12V DC to 28V or 30V output voltage, rated current from 2A to ...

DC-DC Converters convert a direct current voltage input into a different direct current voltage output. They have essentially the same wattage rating on both the input and the output, minus switching losses. DC-to-DC ...

Eaton's 28Vin, dual-output power solutions provide 2V to 28V outputs and feature six-

sided EMI/RFI shielding. Aerospace and military DC/DC converters include the products previously ...

I purchased one of these a few months ago for a van build, so I could use the 12v engine alternator to charge up my 25.6v lithium house batteries. It does the job, puts out a solid 40 ...

XhjFLZBP DC DC Converter 12V to 28V Boost Inverter 3A 5A 10A 12A Voltage Regulator Step Up Power Module (12 A Aluminum L): Amazon : Industrial & ScientificEXTENSIVE ...

The 12V to 28V DC/DC is a fully ruggedized IP68 boost converter which can be used to power 24V/28V devices with a 12V source. It can handle 60W continuous or 80W peak power. The ...

DC-DC mini boost converter with wide input voltage range of 10V to 18V or 10-16V, designed to step up the input rated voltage 12V DC to 28V or 30V output voltage, rated current from 2A to 40A, compact and lightweight, ...

Using high-frequency switching techniques, these supplies efficiently convert input power to regulated 12V and 28V outputs with minimal energy loss. Best for: AV systems, computers, ...
