

PDEOZE PowerContainer

3A lithium battery pack

Overview

A 5V 3A battery pack delivers a consistent 5-volt output with the ability to supply up to 3 amps of current, making it ideal for powering a wide range of modern electronic devices—from smartphones and tablets to drones, portable tools, and IoT gadgets. Can the lithium ion battery pack be recharged without limitations?

The Lithium Ion Battery Pack can be recharged without limitations, as the battery is designed for a slow charge process (6 hours for full charge), which helps the battery pack last longer. Technical details: Output: 12V (voltage range is 12.6-9V) /3A Max. Package content: NOTES.

What is the lithium-ion rechargeable battery pack?

The Lithium-ion Rechargeable Battery Pack is designed for use with all Somfy wirefree external battery-operated motors. Your smart window covering doesn't have to be out of commission while you charge, since our External Battery Pack allows your motorized blinds and shades to continue operating even while charging.

What is a DC12V & 5V battery pack?

Rechargeable DC12V and 5V USB Double Output Lithium ion battery pack. Small size, 3000mAh high capacity, easy to carry. Voltage range of the 12V output port is 12.6-9V, it is not constant, compatible with most 12 volt devices. Supports Over-charged/discharged, Over-voltage, Over-current and Short circuit protection.

What is the return policy for a DC12V & 5V battery pack?

All returns must comply with our returns policy. Rechargeable DC12V and 5V USB Double Output Lithium ion battery pack. Small size, 3000mAh high capacity, easy to carry. Voltage range of the 12V output port is 12.6-9V, it is not constant, compatible with most 12 volt devices.

How many volts is a 4S Li-ion battery?

Nominal: 12.8V (14.6-9V) The output voltage is output directly from 4S Li-Ion battery by through the PCM, so the output voltage is not constant. Nominal: 6.4V (7.3-5V) /10A Max. Nominal: 12.8V (14.6-9V) The output voltage is output directly from 4S Li-Ion battery by through the PCM, so the output voltage is not constant.
