African Outdoor Power Company

Overview

Who is East African power?

An integrated renewable energy development company delivering affordable and reliable clean energy. East African Power is a long-term, SR-driven business developing, building, and operating utility-scale, small and medium hydro and solar power plants in Sub-Saharan Africa.

Who is Africa Power Company?

Africa Power Company was founded with one simple goal: to provide reliable, fit-for-purpose stringing equipment to support Africa's energy infrastructure. Over the years, we've built a vast inventory of specialized stringing tools and machines, helping contractors from 66 kV to 765 kV projects complete their builds safely and efficiently.

Why should you choose Africa Power Company?

Our clients choose us because we provide the equipment, expertise, and service needed to ensure transmission line construction projects are safe, efficient, and on time. Africa Power Company was founded with one simple goal: to provide reliable, fit-for-purpose stringing equipment to support Africa's energy infrastructure.

What is the African Power Platform?

The African Power Platform is a platform with a vision for every one to access power in an affordable and reliable way, allowing for social and economic development. Its mission is to gather all the stakeholders interested in the power sector in Africa and promote relations within the private sector and between public and private sectors. The African Power Platform aims to facilitate access to power in Africa.

What makes East African power a great business?

"Being able to develop a business which can give back, and has a high social

impact, has been truly awesome,” says Dan Klinck, CEO, East African Power. East African Power has the expertise to assist developers, public institutions, and private stakeholders at every stage of development, ranging from pre-development to operation and maintenance.

Who are the members of African Power Association?

The African Power Association members include IPPs, financiers, utilities, consultants, and EPC contractors, among other important roles in the power sector. Stay updated with the latest industry news by subscribing to our newsletter. Join the stakeholders in the Power sector in Africa and grow together.
