# Australia Communications solar Base Station Outdoor Cabinet

## Overview

---

Can a solar cabinet be used outside?

The cabinet is designed for the purpose of mounting equipment in an outdoor environment. Solar shielding, along with high-security hinges and locks all contributes to the cabinet's suitability outdoors, which can provide an ingress rating of up to IP65. 19" ANSI equipment channels or battery shelves are included inside the cabinet.

Can a base station be built inside OUTD cabinets?

A whole base station can be built inside our OutD cabinets. Our OutD series includes multiple wall structure alternatives for protecting telecom equipment in the best possible way, from a single-layer wall construction with light and cost-effective design to a multilayer construction designed for more demanding conditions.

What is a multi-bay outdoor equipment cabinet?

The Multi-Bay Outdoor Equipment Cabinets are available in 1, 2, 3, 4 or 5 bay configurations. The cabinet is designed for the purpose of mounting equipment in an outdoor environment.
