BYD solar Curtain Wall in Cambodia

Overview

Does BYD have a new assembly plant in Cambodia?

The Chinese electric vehicle maker BYD has broken ground on a new assembly plant in Cambodia, as it continues to expand production in Southeast Asia, according to local media reports.

What will BYD do in Cambodia?

The plant will create 200 jobs and position BYD alongside global automakers like Ford, Toyota, and Hyundai, which already operate in Cambodia. In addition, BYD plans to open two service centers and deploy 200 EV charging stations across the country, reinforcing its long-term commitment to Cambodia's green mobility goals.

Will BYD Build a sustainable electric vehicle market in Cambodia?

The company plans to open two service centres and install 200 electric vehicle charging stations across Cambodia, supporting the infrastructure needed for a sustainable electric vehicle market. BYD will join other global automotive giants like Ford, Toyota, and Hyundai, which have already established vehicle assembly factories in Cambodia.

Will BYD Build A second plant in Southeast Asia?

The Cambodia plant would be BYD's second in Southeast Asia after Thailand, where it opened a wholly owned facility in July 2024, with an annual capacity of 150,000 vehicles. BYD is also planning to complete construction of its \$1-billion Indonesian plant by the end of 2025, Reuters reported in January.

Why is BYD establishing a footprint in Cambodia?

The decision by BYD to establish a footprint in Cambodia reflects investors' confidence in the country's political stability. The company plans to open two service centres and install 200 electric vehicle charging stations across Cambodia, supporting the infrastructure needed for a sustainable electric

vehicle market.

How much is the BYD car assembly project worth in Cambodia?

According to Agence Kampuchea Presse, the Council for the Development of Cambodia (CDC) has issued a permit for the BYD car assembly project, with a total investment of US\$32 million and expected job opportunities of over 200.
