

PDEOZE PowerContainer

Bahamas energy storage power supplier

Overview

The technology group Wärtsilä will supply a 25 MW / 27 MWh advanced energy storage system for Bahamas Power and Light Company (BPL). What is the Bahamas national energy policy?

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill.

How will Wärtsilä's gems Digital Energy Platform help the Bahamas?

The combination of flexible power generation and energy storage utilising Wärtsilä's unique GEMS Digital Energy Platform will support the Government of the Bahamas' plans to increase its share of renewable sources, notably solar, by 30 percent by 2030. Renewables hold the key to decarbonising the energy sector.

What is the return on investment in the Bahamas?

In The Bahamas, your return on investment can be as high as 20% or more! There are 2 types of systems. Grid Tied and Off Grid. Proper site assessment (condition and orientation of roof) is a must. + Questions to ask your installer. Can you guarantee your work will be to manufacturer's specifications?
