

## **PDEOZE PowerContainer**

# **Battery cabinet capacity in the computer room**

## Overview

---

How do I choose a battery storage cabinet?

Capacity Requirements: Ensure the cabinet accommodates the quantity and size of batteries used in your workplace. Regulatory Compliance: Choose a cabinet that meets safety standards for Class 9 Dangerous Goods. Durability: Look for a heavy-duty lithium battery storage case designed for long-term use.

How many cells can a battery cabinet hold?

One cabinet should be able to hold at least one complete string of cells. Best practice is that strings should not be split between two cabinets in order to ensure reliability of the entire string. Figure 1 - Battery cabinet with top terminal cells.

How do I choose a lithium-ion battery storage cabinet?

When selecting a lithium-ion battery storage cabinet, consider the following: Capacity Requirements: Ensure the cabinet accommodates the quantity and size of batteries used in your workplace. Regulatory Compliance: Choose a cabinet that meets safety standards for Class 9 Dangerous Goods.

Are battery cabinets safe?

Authorized personnel must be trained in battery safety. Battery cabinets must enclose the batteries behind locked doors accessible only to authorized personnel. As long as the cabinets are kept locked, they can be located in a computer room or other rooms accessible by non-battery technicians.

Can a battery be installed in a computer room?

Sometimes they are installed in the same room as the UPS (i.e., electrical equipment room). Local or regional codes may dictate whether batteries are permitted in an electrical room. Smaller UPS systems (e.g, up to 250 kVA) are commonly installed directly in the computer room along with their respective

battery cabinets.

Why do you need a battery cabinet?

Ease of use is one of the principle selling points for battery cabinets. It is convenient to service the equipment when the UPS and the battery (ies) are right next to each other. Conversely, it is inconvenient to have to go to a separate room when open-rack batteries are installed.
