

PDEOZE PowerContainer

British solar energy storage power station

Overview

Located between Stockton and Darlington in the North East of England, the project will combine a 180-MW solar farm with a 180-MW battery energy storage system. How many MW of solar & battery storage are there in the UK?

Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage. German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country.

Who owns the UK's largest co-located solar & battery storage project?

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country. Langford Solar Farm in Devon. (credit: RWE).

Which UK battery energy storage systems have won government approval?

Three new UK battery energy storage systems (BESS) and a 150 MW capacity solar farm have won government approval. The Scottish government has given Kona Energy the green light for the construction and operation of the Smeaton battery energy storage system (BESS), a 228 MW/456 MWh project near Dalkeith, East Lothian.

What are the UK's largest energy storage projects?

Bramley BESS (Hampshire): 100 MW / 331 MWh, currently the UK's largest energy storage project. Fidra Energy (Thorpe Marsh): A 1.4 GW / 3.1 GWh BESS being built on a former coal site. Copenhagen Infrastructure Partners (CIP): Two 500 MW / 3 GWh systems planned in Scotland.

How many solar projects are there in the UK?

In the UK, RWE has 11 solar projects under construction and recently brought

online its first UK solar site, Langford. Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage.

Is Eku Energy launching a solar project in the UK?

Meanwhile, Eku Energy's 40 MW/40 MWh BESS in Maldon, Essex, has come online. It is the company's first UK project to reach commercial operation. In other news, to the east, Island Green Power's Cottam solar and energy storage project on the Lincolnshire/Nottinghamshire border has been awarded development consent by the UK government.

Lincolnshire/Nottinghamshire border has been awarded development consent by the UK government.

Nov 9, 2024 · To be located at the decommissioned Cottam coal-fired power station, the project will include three electricity generating stations, each with anticipated capacity in excess of 50 ...

Mar 25, 2025 · British Solar Renewables boosts its green portfolio with a 150-MWp solar and battery project, driving the UK's shift to sustainable energy.

Jan 4, 2024 · The 100MW/100MWh REP1& 2 Energy Storage Station project in Kent has been launched for commercial operation. The last in-progress project, Fiskerton II-A, in the suite of eight solar projects in Lincolnshire, ...

Jul 24, 2025 · German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co ...

Nov 9, 2024 · To be located at the decommissioned Cottam coal-fired power station, the project will include three electricity generating stations, each with anticipated capacity in excess of 50 MW, with ground-mounted solar ...

Jul 24, 2025 · German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery ...

Jan 4, 2024 · The 100MW/100MWh REP1& 2 Energy Storage Station project in Kent has been launched for commercial operation. The last in-progress project, Fiskerton II-A, in the suite of ...

6 days ago · The UK's journey to net zero will be impossible without large-scale energy

storage. As renewables like wind and solar become dominant sources of electricity, storing excess ...

Oct 20, 2025 · NatPower UK announces investment of over £10 billion to build 12.5GW battery energy storage systems, including the UK's largest 1GW Teesside storage park. Ten projects ...

May 19, 2025 · The AW2 project, should it go ahead, will be the third battery storage installation at the USEP site, which is emerging as one of the UK's largest battery storage hubs with over 1 GW of projects either in ...

Jan 4, 2024 · The 100MW/100MWh REP1& 2 Energy Storage Station project in Kent has been launched for commercial operation. The last in-progress project, Fiskerton II-A, in the suite of ...
