Cambodia rooftop solar power generation system

Overview

Cambodia's grid-scale solar development started with just a 10 MW pilot in 2017. Today, nine solar power plants are connected to the national grid and are capable of producing up to 444 megawatts (MW), according to the Stimson Center's Mekong Infrastructure Tracker.

Cambodia rooftop solar power generation system

Cambodia's grid-scale solar development started with just a 10 MW pilot in 2017. Today, nine solar power plants are connected to the national grid and are capable of producing up to 444 megawatts (MW), ...
