Cook Islands Solar System

Overview

The Cook Islands Electricity Sector historically been powered by diesel generators. Since around 2011, increasing solar PV generation on Rarotonga has changed this situation. And in 2014- 15, installation of 95-100% renewable solar hybrid systems on the Northern Group Islands further altered the mix.

Cook Islands Solar System

The planets are with a colour application and also minted. day- and night-time sky, and thereby engage a personal sense of wonder and discovery.
