

## PDEOZE PowerContainer

# DC220v output 380v industrial frequency inverter

## Overview

---

What can a 220V 380V VFD power?

With our 220V input, 380V output VFDs, you can power everything from motors and pumps to HVAC systems and more. Our 220V single phase to 380V three phase VFDs offer a wide range of benefits over traditional three phase power sources.

How to convert 220V to 3 phase 380V?

You can only find a way to convert single phase 220V to three phase 380V. However, many equipment on the market with single-phase 220V input, three-phase 380V output are very expensive, so that many users in need take a step back. ATO 1-phase 220V to 3-phase 380V VFD (frequency inverter) is a perfect solution to solve this problem.

Can a 380V motor be used as a frequency inverter?

It can be used as a motor speed controller and a frequency inverter. In general, most AC motors are three-phase 380V and cannot operate without three-phase power. You can only find a way to convert single phase 220V to three phase 380V.

Can a 380V AC motor run on a 220V power supply?

Running a 3-phase 380V AC motor on a 220V single phase voltage for speed control is easy to be done, especially in some areas where there is no 380V power supply. Our customized VFDs feature with 1hp to 30hp power rating, built-in RS485 communication interface, IP20 for body, V/F control mode.

What are au400 series 220V to 380V frequency converters?

Features: AU400 series 220V to 380V frequency converters are specially developed by us for occasions where three-phase power is lacking. With multiple protection methods and excellent driving performance, they can solve the difficulty of users lacking 380V power.

How much power does a VFD have?

Customizable 7.5 hp (5.5 kW) single phase VFD, single phase 220V to three phase 380V variable frequency drive for AC motor speed control. Features 13 amps, RS485 communication interface, IP20 enclosure rating.

Customizable 7.5 hp (5.5 kW) single phase VFD, single phase 220V to three phase 380V variable frequency drive for AC motor speed control. Features 13 amps, RS485 communication interface, IP20 enclosure rating.

If the three-phase 380V motor itself is a star connection, it can be changed to a triangular connection. At this time, the motor becomes three-phase 220V motor, using our 220V ...

AU400 series 220V to 380V frequency converters are specially developed by us for occasions where three-phase power is lacking. With multiple protection methods and excellent driving ...

By converting available DC power or stabilizing incoming AC voltage, the 220V to 380V inverter ensures smooth and efficient operation of production lines. This improves energy efficiency, ...

30 hp VFD for sales, converts 1-phase 220V input to 3-phase 380V output, 45A rated current, 50Hz/ 60Hz input frequency, 0-400Hz output frequency. It can be used as a motor speed ...

Upgrade your system with our high-performance Frequency Inverter for Motor Control, 220v to 380v, VFD Technology, 2.2KW to 11KW, 3 Phase Output. Built for reliability, efficiency and ...

With our 220V input, 380V output VFDs, you can power everything from motors and pumps to HVAC systems and more. Our 220V single phase to 380V three phase VFDs offer a wide ...

AU400 series 220V to 380V frequency converters are specially developed by us for occasions where three-phase power is lacking. With multiple protection methods and excellent driving performance, they can solve the difficulty of ...

380V three-phase input to 3-phase 380V output 220V single-phase input to 3-phase 380V output, the minimum power required for selecting a frequency converter is one ...

Choose from a wide selection of variable frequency driver & discover wholesale 220v to 380v 3 phase inverter that suit various applications from small appliances to large compressors.

Unlike traditional inverters that only adjust motor speed, the AU220 provides both frequency conversion and voltage step-up functions, enabling it to convert a lower input voltage into a ...

Product Summary: VFD CoolClassic Frequency Inverter Frequency Converter 220V Input and 380v 3-Phase Output 2.2kw Free Express Shipping (4KW 220Vto380V)
