# Expected shipments of energy storage lithium batteries

## Overview

---

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy storage cell shipments of 99.58 GWh, a 150.62% year-on-year increase, despite a 7.75% quarter-on-quarter decline.

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy storage cell shipments of 99.58 GWh, a 150.62% year-on-year increase, despite a 7.75% quarter-on-quarter decline.

According to SMM statistics, global shipments of energy storage battery cells saw significant year-on-year growth, reaching 334 GWh for the year. Among these, lithium iron phosphate (LFP) energy storage battery cells accounted for 317 GWh. Chinese energy storage battery companies performed.

InfoLink Consulting has launched its global lithium-ion battery supply chain database. According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipments reached 202.3 GWh in the first three quarters of 2024, up 42.8% YoY. The energy storage cell market.

Recently, the research organization EVTank, in collaboration with the China YiWei Institute of Economics, jointly released a White Paper on China Lithium-Ion Battery Industry Development (2025). According to the data presented in the paper, the global shipment volume of lithium-ion batteries in.

Global shipments of electric vehicle (EV) power batteries and energy storage batteries surged in 2024, and could continue growing until 2030, according to Chinese research institution EV Tank. Global EV power battery shipments increased by 22pc on the year to 1,051GWh in 2024. This was mainly.

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy storage cell shipments of 99.58 GWh, a 150.62% year-on-year increase, despite a 7.75% quarter-on-quarter decline. Policy-driven factors, including U.S. tariff impacts and.

Li-ion battery shipments will have strong growth in the future, registering a 21.4% compound annual growth rate (CAGR) by 2029. The Americas region will enjoy the highest growth rate (CAGR 29.4%) over the forecast period, with nearly 675 GWh projected to be shipped in 2029. AdobeStock\_570611993

## Expected shipments of energy storage lithium batteries

---

Global shipments of electric vehicle (EV) power batteries and energy storage batteries surged in 2024, and could continue growing until 2030, according to Chinese research institution EV Tank.

InfoLink Consulting has launched its global lithium-ion battery supply chain database. According to InfoLink's global lithium-ion battery supply chain database, energy ...

In 2024, global Li-ion battery shipments reached an estimated 1,353 GWh. This is a year-on-year increase of 23% and 1.7 percentage points higher than the figure we presented ...

Global energy storage battery shipments are projected to reach 392 GWh in 2025, up from 314.7 GWh in 2024 [2] [9]. That's like replacing every AA battery in your junk drawer ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector continues to grow as ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

In 2023, energy storage (ESS) battery shipments hit a new high of nearly 204 GWh, or 18.5% of total battery shipments, and rose to 72.6% year-on-year. Over the forecast ...

In 2024, the global energy storage market continued its rapid growth, bolstered by

policy support and increasing market demand. According to SMM statistics, global shipments ...

This Review details the range of advanced battery technologies under development and their associated supply chain inputs, sketches out challenges facing the domestic supply chain, ...

In the second half of 2024, several large GWh orders were signed in the UK, Saudi Arabia and Australia. As a result, global energy storage battery shipments (ESS LIB) reached 369.8GWh, marking a ...

The market is evolving from a duopoly of EVE Energy and Rept Battero to a three-way race with Poweramp, as these companies compete with similar product portfolios and customer bases. The chart ...

The market is evolving from a duopoly of EVE Energy and Rept Battero to a three-way race with Poweramp, as these companies compete with similar product portfolios and ...

In the second half of 2024, several large GWh orders were signed in the UK, Saudi Arabia and Australia. As a result, global energy storage battery shipments (ESS LIB) reached ...
