# Germany launches tender for flow battery modules for telecommunication base stations

## Overview

---

What is Germany's grid booster energy storage project?

The project was approved by regulators in March 2024 as part of Germany's Network Development Plan (NEP) 2023-2037/45. Grid booster energy storage projects have been launched by three out of Germany's four TSOs, and are placed at critical grid nodes to stabilise the grid and reduce operating costs.

When should I submit a bid for a grid booster battery?

Bids should be submitted by April 3, 2025. Germany is in line for another grid booster battery with transmission system operator (TSO) Amprion looking to apply the technology in an innovative way both in terms of project design and its utilization.

What is FBE's new flow battery system?

Leaders from FBE and the private equity-backed FlexBase Group met in Laufenburg, Switzerland to mark the launch. The flow battery system, on a 20,000 m<sup>2</sup> site, will be able to store energy for hours or even days, to maintain grid stability during periods of low wind and solar output, FBE said.

The project was approved by regulators in March 2024 as part of Germany's Network Development Plan (NEP) 2023-2037/45. Grid booster energy storage projects have been launched by three out of Germany's four TSOs, and are placed at critical grid nodes to stabilise the grid and reduce operating costs.

Bids should be submitted by April 3, 2025. Germany is in line for another grid booster battery with transmission system operator (TSO) Amprion looking to apply the technology in an innovative way both in terms of project design and its utilization.

Leaders from FBE and the private equity-backed FlexBase Group met in Laufenburg, Switzerland to mark the launch. The flow battery system, on a 20,000 m<sup>2</sup> site, will be able to store energy for hours or even days, to maintain grid stability during periods of low wind and solar output, FBE said.

Amprion has launched a tender for its 'grid booster' energy storage project, totalling 250MW of capacity, in Germany.

Leaders from FBE and the private equity-backed FlexBase Group met in Laufenburg, Switzerland to mark the launch. The flow battery system, on a 20,000 m<sup>2</sup> site, will be able to store energy for hours or ...

Transmission system operator (TSO) Amprion has launched a tender for a decentralised grid booster project which involves installing large-scale batteries with a ...

Amprion has launched a tender for its 'grid booster' energy storage project, totalling 250MW of capacity, in Germany.

A tender for the provision of energy storage technology for for a 'decentralised grid booster' deployment has been launched by Amprion, one of the four major transmission system ...

Amprion, one of Germany's four major TSOs, has launched a tender for a 250MW decentralized grid booster project, featuring battery energy storage systems (BESS) at five substations.

Germany's lithium battery market for 5G base stations is witnessing robust growth, driven by expanding 5G infrastructure and increasing demand for reliable power backup ...

A double-header of big news from Germany, with construction starting on a 'Grid Booster' BESS from TransnetBW and Fluence and the EU putting EUR58 million towards a project that will combine green hydrogen ...

To mark the start of the construction phase, leaders from Flow Batteries Europe (FBE) and the FlexBase Group met in Laufenburg, Switzerland to solidify cooperation on addressing energy ...

The 250 MW grid booster will spread across five locations in southern Germany. In addition to its grid serving use aimed at reducing the costs of congestion management, the ...

The 250 MW grid booster will spread across five locations in southern Germany. In addition to its grid serving use aimed at reducing the costs of congestion management, the ...

Transmission system operator (TSO) Amprion has launched a tender for a decentralised grid booster project which involves installing large-scale batteries with a combined capacity of 250 MWh at five grid points in ...

GERMANY: Trianel launches tender for twin BESS in Mecklenburg-Vorpommern and Brandenburg. Trianel has launched a competitive procurement process for the delivery and ...

Leaders from FBE and the private equity-backed FlexBase Group met in Laufenburg, Switzerland to mark the launch. The flow battery system, on a 20,000 m2 site, will ...

A double-header of big news from Germany, with construction starting on a 'Grid Booster' BESS from TransnetBW and Fluence and the EU putting EUR58 million towards a ...
