

## PDEOZE PowerContainer

# Heishan new energy storage manufacturer

## Overview

---

Project engineering, procurement, and construction (EPC) was provided by Nanjing NR Electric Co., Ltd., while the project's container energy storage battery system was supplied by Gotion High-tech. This project is currently the largest combined wind power and energy storage project in China. Who is Jiangsu Huishan New Energy Group?

Jiangsu Huishan New Energy Group Co., Ltd. is a company that provides a variety of manufacturing expertise, science, and foreign trade, specializing in the production of photovoltaic stents, and full set of accessories for IBC Barrel cages.

What is China's new energy storage plan?

The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

How can China improve the value chain of new-energy storage manufacturing?

To enhance support for the value chain of relevant manufacturing enterprises and foster a service-oriented manufacturing model, China seeks to drive the extensive adoption of next-generation information technologies, including blockchain, big data, artificial intelligence and 5G, within the new-energy storage manufacturing sector, the plan said.

Is hithium a good energy storage company?

HiTHIUM received a remarkable score of 80 points in its first-ever participation, among the top 5% of rated companies worldwide and marks the highest score ever achieved by a Chinese energy storage enterprise.

Where are energy storage batteries made in China?

An industrial robot processes energy storage batteries at a plant in Nanfeng county in East China's Jiangxi Province on December 16, 2024. China has 400 plants powered by 5G wireless technologies in high-end manufacturing as of November, data from the Ministry of Industry and Information Technology showed. Photo: VCG.

What is MIIT's new energy storage plan?

The plan, jointly issued by eight departments including the Ministry of Industry and Information Technology (MIIT) on Monday, seeks to foster high-quality development in the new-energy storage manufacturing.
