# Invest 1 2 billion to build energy storage project

## Overview

---

Hydro plans to build a new pumped storage power plant in Luster Municipality, Norway. With construction starting in 2025 and operations beginning in 2028/2029, the total investment for the project is estimated at approximately NOK 1.2 billion.

Hydro plans to build a new pumped storage power plant in Luster Municipality, Norway. With construction starting in 2025 and operations beginning in 2028/2029, the total investment for the project is estimated at approximately NOK 1.2 billion.

WASHINGTON – Companies in October announced more than \$1.2 billion in investments to build five new large-scale clean energy projects that are expected to create at least 912 permanent new jobs, according to E2’s monthly tally of private-sector projects made possible by the Inflation Reduction Act.

The energy storage battery project is an expansion of Eve Energy's existing facility in Malaysia, which began operations in February this year. The project will facilitate the company's overseas expansion, and will also help it mitigate the risks posed by escalating international trade friction.

Dana Point, CA and Washington, DC – Copia Power (Copia) today announced it has executed a \$1.2 billion construction-to-term loan financing to fund the construction of its Harquahala Sun 1 and Harquahala Sun 2 solar plus storage projects. These first two phases of Copia’s Harquahala Sun complex.

Northvolt, a premium supplier of sustainable battery cells and systems, has announced raising \$1.2 billion in an extension of its convertible note to finance expansion in Europe and North America. This funding builds upon a \$1.1 billion convertible note signed in July 2022, making the total raised.

New York, NY – October 12, 2022 – Quinbrook Infrastructure Partners (“Quinbrook”), a specialist investment manager focused exclusively on the new infrastructure needed for the energy transition, and its portfolio company Primergy Solar (“Primergy”) announced today the sale of a minority equity.

Hydro plans to build a new pumped storage power plant in Luster Municipality, Norway. With construction starting in 2025 and operations beginning in 2028/2029, the total investment for the project is estimated at approximately NOK 1.2 billion. Illvatn is part of a larger hydropower initiative in.
