Israel Communications 5G Base Station Project Bidding Project

Overview

Who has the best 4G/5G network in Israel in 2025?

Partner and Cellcom have the strongest mobile network and the best 4G/5G coverage in Israel in 2025. Pelephone has a great 5G network in Israel, Hot Mobile has the weakest 4G/5G mobile data network in Israel in 2025.

What is 5G & how does it work in Israel?

The fifth generation of cellular networks, 5G, officially launched in Israel on Tuesday. It offers customers faster browsing speeds on their smartphones – if they can connect to it. Following some setbacks over tenders and upgrades, the network officially launched across the country.

How many 5G sites are there in Israel?

The first offers 500 gigabytes of Internet surfing for NIS 60 per month for five years. The second offers a terabyte (1,000 GB) for NIS 70 per month for five years. Together, the providers say they have installed 250 5G sites throughout Israel, with more being added regularly.

How will Israeli telecommunications market change?

The two moves we are advancing today, bolstering the inventory of frequencies for the cellular companies along with lowering the bar for entry, and paving the way for new players to enter the market, are going to continue the dramatic changes in the Israeli telecommunications market, and they will improve the quality of the cellular network.

How does Israel's Communications Ministry plan to increase competition?

Israel's Communications Ministry plans to increase competition by allowing new entities to enter the cellular infrastructure market, enabling 5G support. Communications Minister Shlomo Karhi seeks every legal means to increase state support for Channel 14, without any constraints on some of its more disturbing content, the writer complains.

How many cell networks are there in Israel?

Today, there are three cell networks in Israel: Pelephone's, Cellcom and Wecom's, and Partner and Hot Mobile's, Calcalist reported. The companies own, operate, and maintain these on their own, and the ministry wants to enable the entrance of other players into this field, Calcalist said.
