Ivory Coast environmentally friendly solar system manufacturer

Overview

Who builds a solar power plant in Ivory Coast?

RMT builds a 37.5 MWp solar power plant and installs . Boundiali photovoltaic solar power plant in northern Ivory Coast was built in partnership with the country's government, in particular CI-ENERGIES, and with financial support from Germany. It has been in operation since July 2023.

Why did Ivory Coast Open a 37.5 megawatt solar power plant?

Ivory Coast officially opened a 37.5 megawatt (MW) solar power plant on Wednesday in what the government said was the first step of a plan to integrate more renewable energy into the power sector.

Why did Ivory Coast build its first solar power plant?

As part of its drive to diversify electricity generation sources and increase the share of renewable energies in its energy mix (45% by 2030), Ivory Coast commissioned RMT to build the country's very first photovoltaic solar power plant, with a capacity of 37.5 MWp, spread over 69,440 550 Wp solar panels and 168 inverter-strings of 250 kVA.

How much solar energy will Ivory Coast have in 5 years?

"In five years, the share of solar energy will be 9%," stated Prime Minister of Ivory Coast, Robert Beugré Mambé during the power plant inauguration on April 24. Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government.

Who owns the Ivory Coast electricity company?

With 5 400 employees in 2023 and 54.02% owned by Eranove, the Ivory Coast Electricity Company (CIE) is a private provider that has been linked to the Ivory Coast's government by a concession agreement since 1990.

How much power does the Ivory Coast have?

Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government. The Ivory Coast currently has installed power capacity of 2,907 MW, with seven operational hydroelectric dams serving as its primary renewable energy source alongside four existing gas and oil-fired thermal power plants.
