

PDEOZE PowerContainer

Kyrgyzstan energy storage power supply customization company

Overview

How much hydropower does Kyrgyz Republic have?

The Kyrgyz Republic possesses tremendous hydropower potential, up to 142 billion kWh. Hydropower accounts for nearly 90 percent of electricity produced in the Kyrgyz Republic, but this installed capacity only represents about 10 percent of the country's hydropower potential.

Are electric vehicles gaining in popularity in Kyrgyz Republic?

Electric vehicles are gaining in popularity in the Kyrgyz Republic, both with individuals and the public sector. See Opportunities section below for further details. The Kyrgyz government seeks to attract industry leaders with deep experience and technical know-how to improve the country's energy infrastructure.

What is happening in Kyrgyz Republic?

The Kyrgyz government awarded a turn-key contract in 2018 for the Asian Development Bank-supported modernization of the Toktogul HPP to a joint venture of GE Hydro (France) and GE Renewables (Switzerland). In the past year, the government has announced its intent to develop several new, large hydropower projects in the Kyrgyz Republic.
