Latest news on Dutch energy storage battery companies

Overview

Detailed info and reviews on 10 top Energy Storage companies and startups in Netherlands in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more. What is the largest battery storage project in Belgium?

Construction has started on what will be the largest battery storage project in Belgium at 25MW/100MWh when completed later this year. Nala Renewables' lithium-ion battery energy storage system (BESS) will come online at metals conglomerate Nyrstar's zinc smelting operation in Balen, in Belgium's Flemish region, by the end of 2022.

Is there a business case for energy storage in the Netherlands?

As mentioned above, there have been two major barriers, or stumbling blocks, to the business case for energy storage in the Netherlands to date. As of the beginning of 2022, one of those has been eliminated, to the great relief of GIGA Storage and others in the industry.

Are all energy storage facilities in the Netherlands electro-chemical?

All energy storage facilities in the Netherlands are electro-chemical, with the exception of the contracted 1 MW Hydrostar underwater compressed air energy storage project in Aruba (Caribbean). Hydrostar is a Canadian company specializing in underwater compressed air energy storage technologies.

How much does a 100 mw/200 MWh battery energy storage project cost?

Energy storage provider Return has broken ground on a 100-MW/200-MWh battery energy storage project in the western part of the Netherlands, the cost of which is estimated at EUR 85 million (USD 97m). Visualisation of the Antares BESS project in Waddinxveen, Netherlands. Image source: Return.

Who owns dronter energy storage?

The project appears to actually be one of three on the same site which form the Dronter Energy Storage (Dronter Energie Opslag) project. Construction was announced on that project in November last year by its owners, holding company FlevoBESS, investor GreenPowerBank Dronten and green energy utility Pure Energie.

Will Eneco optimise a Bess project in the Netherlands?

Eneco will optimise a BESS project in the Netherlands that, at 126.4MWh, will be the largest when it comes online before the end of the year.
