

PDEOZE PowerContainer

Latvian home energy storage manufacturers supply

Overview

Why are energy storage systems important in Latvia?

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The importance of these technologies is being recognized and invested in by a growing number of companies and public institutions.

When will battery energy storage systems be installed in Latvia?

The most recent update regarding BESS installations is that in Tume and Rēzekne, Latvia's transmission system operator "Augstsprieguma tīkli" (AST) in June 2025 installed battery energy storage systems with a combined capacity of 80 MW and 160 MWh, which will undergo testing until October 2025.

What is Latvia's first storage battery system?

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Niam Infrastructure and Evecon will together deploy a solar-and-storage portfolio in Latvia that could have up to 26MW of BESS capacity.

From residential battery walls to 100MW grid-scale installations, Latvian power storage manufacturers deliver solutions that balance innovation with practicality.

Our analysts track relevant industries related to the Latvia Residential Energy Storage System Market, allowing our clients with actionable intelligence and reliable forecasts tailored to ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The importance of these technologies is being recognized and invested in by a growing ...

Our range of products is designed to meet the diverse needs of base station energy storage. From high-capacity lithium-ion batteries to advanced energy management systems, each ...

We offer various electricity storage solutions for households, companies, as well as industrial storage battery parks.

From residential battery walls to 100MW grid-scale installations, Latvian power storage manufacturers deliver solutions that balance innovation with practicality.

With an investment of EUR6 million, AJ Power Corporate Group has installed battery energy storage systems (BESS) at three of its large-scale solar parks in Valmiera, Aizkraukle, and Ilukste.

ASOTO OÜ is an innovative company registered in Estonia with a factory and warehouse located in Riga, Latvia. ASOTO OÜ primarily designs and produces bespoke gas-powered plug & play ...

With EU directives pushing for 45% renewable integration by 2030, the Baltic state faces a make-or-break moment. Enter energy storage containers - the Swiss Army knife of modern power ...
