Mexico pack battery factory

Overview

Will Mexico create an electric battery industrial park?

Mexico City — The Mexican government is planning to create an electric battery industrial park where Tesla and other lithium battery manufacturers could set up shop, targeting the center of the country as the location, Martha Delgado, undersecretary for multilateral affairs and Human Rights at the Foreign Ministry, told Bloomberg Línea.

When will a new battery plant be built in Mexico?

The plant will primarily supply the micro-electromobility sector. The amount of the investment has not been announced. The Spanish company will plan to produce its first batteries in Mexico in February or March of next year. (Endurance Motive).

Who is the best battery manufacturer in Mexico?

Firefly Batteries is known as one of the top 10 battery manufacturers in Mexico as we can find many of this manufacturer's battery products in Mexico. Firefly Batteries is a battery technology manufacturer focused on the development of advanced lead-acid batteries and its innovation in energy storage.

Where should a battery cluster be built in Mexico?

The government's plan is for the battery cluster to be built in the center of the country, since it is a strategic location for supplying automotive plants located in the states of Puebla, Querétaro, Mexico and Guanajuato.

Does Mexico have a battery industry?

Mexico's battery industry continues to grow rapidly, with leading manufacturers providing energy storage solutions for a variety of sectors, including automotive, industrial, and renewable energy sectors in Mexico.

Is there a demand for lithium batteries in Mexico?

Puebla's Volkswagen manufacturing plant, which has been in operation for over 55 years. (Volkswagen México) Endurance Motive has also met with other potential customers, including the Mexican Association of the Photovoltaic Industry, which confirmed that there is increasing demand for lithium batteries in Mexico.
