Morocco s new solar panel manufacturer

Overview

Ecoprogetti has recently completed the expansion of Almaden Morocco's photovoltaic production line, bringing its total production capacity to 1GW, thus consolidating the largest PV module manufacturing plant in Morocco and North Africa. Does ecoprogetti produce solar panels?

Ecoprogetti offers a range of turnkey production lines, designed to optimize every aspect of solar panel manufacturing. Image credit: Ecoprogetti News flash Italy's Ecoprogetti has started commissioning a new 500 MW solar panel production for local manufacturer, Almaden Morocco, expanding the company's total installed capacity to 1 GW.

What is Morocco's largest solar energy project?

Morocco has launched one of the world's largest solar energy projects costing an estimated \$9 billion. The aim of the project was to create 2,000 megawatts of solar generation capacity by 2020. The Moroccan Agency for Solar Energy (MASEN), a public-private venture, was established to lead the project.

How much will Morocco's solar energy project cost?

In November 2009 Morocco announced a solar energy project worth \$9 billion which officials said will account for 38 percent of the North African country's installed power generation by 2020. Funding would be from a mix of private and state capital. The ceremony was attended by U.S. Secretary of State Hillary Clinton and the Moroccan king.

Does Morocco have solar power?

Solar power in Morocco is enabled by the country having one of the highest rates of solar insolation among other countries— about 3,000 hours per year of sunshine but up to 3,600 hours in the desert. Morocco has launched one of the world's largest solar energy projects costing an estimated \$9 billion.

Who is solar power Maroc?

Solar Power Maroc is a key provider of photovoltaic solar panels and energy solutions, targeting energy cost reduction and promoting eco-sustainability for industrial sectors.

Is ecoprogetti the largest solar PV plant in North Africa?

Installation on the new line started in July this year and is scheduled for full commissioning at the end of the month. Ecoprogetti claims the added capacity make it the largest solar PV panel manufacturing plant in North Africa.
