New Energy Energy Storage Electric System

New Energy Energy Storage Electric System

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

Battery energy storage will be increasingly necessary to store power from renewable energy, like wind and solar, over the coming years to create a more reliable electric grid that delivers clean energy to New Yorkers when ...

What is the least-cost portfolio of long-duration and multi-day energy storage for meeting New York's clean energy goals and fulfilling its dispatchable emissions-free resource needs?

One of the country's largest battery energy storage sites is about to be built on Staten Island, but families say by the time they learned of the plan, it was already a done deal.

A new bill, Energy Storage Tax Incentive and Deployment Act, was introduced in March 2021 for standalone ESS and offers similar tax credit benefits for certain renewable energy sources.

Regulators earlier this month approved a scheme to support grid-scale energy storage facilities, aligned with New York's 6GW by 2030 policy target.

The Brownsville energy storage system, which will be located next to our substation in the Brownsville neighborhood of Brooklyn, will further our clean-energy goals by storing 5.8 MW of ...

Regulators earlier this month approved a scheme to support grid-scale energy storage

facilities, aligned with New York's 6GW by 2030 policy target.

As an important first step in protecting public and firefighter safety while promoting safe energy storage, the New York State Energy Research and Development Authority (NYSERDA) ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the 100MW battery energy storage project will be able to ...

Agilitas Energy has a 10-year contract with Con Edison to discharge up to four hours of stored energy during its peak demand period from May 1 through September 30. Con Edison can ...
