New energy storage project in the Philippines

Overview

Meralco PowerGen Corporation (MGEN) announced the 49MW battery energy storage system (BESS) project in the City of Toledo, Cebu, yesterday (21 July). Set to be constructed and brought online in two phases, the first 25MW phase is planned for the start of commercial operation.

Meralco PowerGen Corporation (MGEN) announced the 49MW battery energy storage system (BESS) project in the City of Toledo, Cebu, yesterday (21 July). Set to be constructed and brought online in two phases, the first 25MW phase is planned for the start of commercial operation.

On October 23, 2025, China Energy Engineering Corporation (China Energy) signed the EPC contract for the South Block of the MTerra Solar project with Terra Solar Philippines, Inc. (TSPI). The contract covers 1,050 MWp of photovoltaic capacity and a 1.2 GWh energy storage system. Specifically: The.

HyperStrong, a global leading provider of energy storage system solutions, has marked a significant strategic step in the Southeast Asian market with two key achievements in the Philippines in October 2025. The company inaugurated its new office in Manila's Bonifacio Global City (BGC) financial.

In a strategic move valued at approximately \$21 million, Aboitiz Power is integrating BESS technology into its existing thermal plants, a model for clean energy that is being closely watched by national utilities as a blueprint for climate-resilient infrastructure. The groundbreaking for.

The power generation arm of the Philippines' largest private electric distribution provider, Manila Electric Company (Meralco), is developing its second large-scale battery storage project. Meralco PowerGen Corporation (MGEN) announced the 49MW battery energy storage system (BESS) project in the.

POWER FOR 2 MILLION HOMES: Philippine President Ferdinand Marcos Jr (centre), leads the groundbreaking ceremony of the \$3.4-billion MTerra Solar Project, located in a 3,500-hectare (35 sq km) land between Nueva Ecija and

Bulacan, on Thursday (November 21), said to be the biggest integrated solar.

President Ferdinand Marcos Jr. (center) leads the groundbreaking ceremony of the MTerra Solar Project — the world’s largest integrated solar and battery storage facility. Seen in the photo are (from L-R) Special Assistant to the President for Investment and Economic Affairs Frederick Go, Department.

New energy storage project in the Philippines

Manila: In a bold move to ramp up its renewable energy ambitions, the Philippines launched a \$3.4-billion solar power and battery storage project has been kicked off north of the ...

The Department of Energy (DOE) of the Philippines endorsed 17 power generation projects to the National Grid Corporation of the Philippines (NGCP) in June 2025, highlighting ...

The Philippines has commissioned the Batangas 1 project, the country's first to combine agriPV with a battery energy storage system (BESS).

A large-scale solar and battery energy storage project in the Philippines is moving forward faster than expected, with 54% of the first phase completed just eight months after construction began.

HyperStrong, a global leading provider of energy storage system solutions, has marked a significant strategic step in the Southeast Asian market with two key achievements ...
