Nordic Energy Storage Project Construction Database

Overview

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.

How much storage capacity does Seb Nordic energy have?

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

What is the largest energy capacity in the Nordics?

The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building. It has a capacity of 112.9MWh, and that is also set to come online at the start of 2025.

Which companies are launching Bess projects in the Nordics & the Baltics?

News from the Nordics and the Baltics, with BESS projects launched in Sweden, Denmark and Latvia by Centrica, Nordic Solar and Niam Infrastructure and Evecon. UK-headquartered utility Centrica has acquired a 100MW battery energy storage system (BESS) portfolio in Sweden from Swiss developer and independent power producer (IPP) Fu-Gen AG.

Does Seb Nordic energy have a pan-Nordic IPP?

"SEB Nordic Energy continues to make significant investments in Sweden, Norway, and Finland, developing a pan-Nordic IPP* for renewable energy.

Will evecon build a battery energy storage system?

Evecon will also build 26MW of battery energy storage systems (BESS) at the project sites, but did not specify the timeframe for the construction and commissioning of these facilities.
