Norway lithium energy storage power supply procurement project

Overview

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects across Denmark, Sweden, Finland, and Norway through 2027.

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects across Denmark, Sweden, Finland, and Norway through 2027.

October 21, 2025 – Elinor Batteries has been awarded the contract to supply battery solutions for three large-scale battery parks in Southern Norway, boosting energy storage capacity, reducing grid costs, and supporting a faster transition to a low-emission society. Visualization of the Eiktyr.

Chinese lithium-ion OEM Hithium and system integrator BOS Power have signed a supply agreement for 3GWh of BESS deployments in the Nordic region. The agreement will see Hithium supply BOS with battery energy storage system (BESS) technology for projects in Denmark, Sweden, Finland and Norway.

Most batteries being produced today will be used to store energy for wind farms, industrial activities and off-grid rural areas,” explains Nora Rosenberg Grobæk, former Head of Batteries at Invest in Norway, the official investment promotion agency of Norway. Whether for EVs or energy storage.

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects across Denmark, Sweden, Finland, and Norway through 2027. As shown in the photo, CEO Ove Johan.

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and stationary battery energy storage solutions (BESS). The overall project and

product pipeline amounts to 7 GWh until 2030. The three Norwegian.

Arendal, better known for its fjords and fishing boats, is now home to a pioneering battery project that could help Europe ease its dependence on imported cells. Four years ago, the Norwegian renewables giant Å Energi joined forces with technology partners and investors to create Morrow Batteries.

Norway lithium energy storage power supply procurement project

Chinese lithium-ion manufacturer Hithium and system integrator BOS Power have signed a supply agreement for 3GWh of battery energy storage system (BESS) deployments across the Nordic ...

A new chapter in Europe's green transition is unfolding in a coastal town on Norway's south coast. Arendal, better known for its fjords and fishing boats, is now home to a ...

arket share in several parts of the battery value chain. The battery value chain has the potential to become a major new, profitable industry in Norway, giving us a chance to contribute to ...

A new chapter in Europe's green transition is unfolding in a coastal town on Norway's south coast. Arendal, better known for its fjords and fishing boats, is now home to a ...

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects ...

Beyond EVs, the burgeoning renewable energy sector significantly contributes, as lithium-ion batteries are crucial for grid-scale energy storage, enabling the integration of ...

The agreement will see Hithium supply BOS with battery energy storage system (BESS) technology for projects in Denmark, Sweden, Finland and Norway through 2027.

Elinor Batteries has signed an MoU with SINTEF Research Group to open a sustainable,

giga-scale factory in mid-Norway, and HREINN will manufacture 2.5 to 5 million ...

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and stationary battery energy storage ...

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and stationary battery energy storage solutions (BESS). The overall ...

Norwegian battery cell producer Morrow Batteries has opened Europe's first lithium iron phosphate (LFP) gigafactory with an annual production capacity of 1 GWh to supply the ever ...

October 21, 2025 - Elinor Batteries has been awarded the contract to supply battery solutions for three large-scale battery parks in Southern Norway, boosting energy storage capacity, ...

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage ...
