

## PDEOZE PowerContainer

# Outdoor base station equipment cabinet manufacturer

## Overview

---

Can a base station be built inside OUTD cabinets?

A whole base station can be built inside our OutD cabinets. Our OutD series includes multiple wall structure alternatives for protecting telecom equipment in the best possible way, from a single-layer wall construction with light and cost-effective design to a multilayer construction designed for more demanding conditions.

What are ABS cabinet solutions?

Constructed to provide superior protection in all environments, ABS cabinet solutions offer maximum flexibility for customizable turn-key options that future proof growing networks. Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets.

What are Delta OUTD cabinets?

Available in different configurations, Delta OutD cabinets are designed to protect equipment from external threats in all climates from the tropics to the arctic. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management.

Can a walk-in cabinet be built from the factory?

The cabinet lineup can be built and shipped direct from the factory in the desired configuration. Amphenol Walk-In Cabinets (WIC) are protective walk-in enclosures housing an integrated system of electronic components and equipment that can serve fiber and copper interfaces.
