Outdoor power supply brand cost performance

Overview

Find the best portable power stations for your backcountry and frontcountry plans, based on extensive, hands-on testing.

Find the best portable power stations for your backcountry and frontcountry plans, based on extensive, hands-on testing.

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is.

Our extensive side-by-side tests measured the runtime delivered with everything from phones & laptops to camping gear & home refrigerators. We also measured the number of recharges you can deliver to an iPhone, a laptop, or even a cordless drill. We measured other things you'll want to know, too.

They are relatively inexpensive, with a power supply using a lead - acid battery typically costing between \$100 - \$300. However, they are heavy, have a shorter lifespan, and require more maintenance compared to other battery types. Lithium - ion batteries are more expensive than lead - acid.

We will analyze the performance, features, and cost-effectiveness of the 600Plus compared to four other products, ultimately assisting you in making an informed purchasing decision. First, let's introduce the 600Plus. This outdoor power supply is known for its high power output of 800W and large.

Our public MarketSignal dashboard brings these shifts into focus, offering an interactive view of retailer performance, brand share, pricing trends, and consumer behavior. Explore the latest insights or dive into the dashboard to see how the market is moving. SOURCE: All data insights in this.

Diverse Battery Capacities: Top brands offer a range of battery capacities, from 1024Wh to over 3000Wh, catering to various power needs for adventures. Fast Charging Options: Leading models feature rapid charging

capabilities, with some achieving 80% charge in under an hour, perfect for on-the-go. Which outdoor power equipment retailers are the best in 2025?

The top Outdoor Power Equipment retailers in 2025 remain Home Depot and Lowe's, leading in both unit and dollar share – with Amazon and Walmart gaining ground. Note: OpenBrand's share split is based on our retailer panel, which currently consists of Home Depot, Lowe's, Amazon, Walmart, and Best Buy.

What are the top 3 outdoor power equipment brands?

The top three Outdoor Power Equipment brands are Ryobi, Craftsman, and Ego. For more brand share insights, including share trend over time, access our public OPE dashboard now.

Who leads the outdoor power equipment market?

For more insights on draw and close rates – and to see who is stealing the shoppers lost by the leading retailer — check out our quarterly Outdoor Power Equipment MarketSignal dashboard. Who leads the Outdoor Power Equipment market share by brand?

The top three Outdoor Power Equipment brands are Ryobi, Craftsman, and Ego.

How is the outdoor power equipment market changing?

The Outdoor Power Equipment market continues to evolve at a rapid pace, reshaping how consumers shop, which brands they trust, and what drives their purchase decisions.

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.

How much does a portable power station cost?

When looking at portable power stations, prices can range dramatically. You might find lower capacity units starting around \$500, while high-capacity

models can exceed \$3,000. A useful tip is to compare the average cost per watt-hour (Wh) capacity; many brands fall between \$1 to \$3 per Wh, depending on features and technology.
