

## PDEOZE PowerContainer

# Peru Mobile Outdoor Power Supply

## Overview

---

Does Peru have a power adapter?

This Power Adapter is a great option if you want to make sure your charging devices will be compatible throughout the country of Peru. It's also compatible in dozens of countries around the world and has a built-in fuse that will protect your valuable electronics during the relatively frequent power surges experienced in Peru.

Do device plugs work in Peru?

Most device plugs will work with the outlet types A and B in Peru but an adapter will be needed for type C. Also, the voltage in Peru is different from American voltages. Please note: an adapter will be needed if your device plug has a grounding pin and you are trying to use a Type A outlet.

What are the different types of power plugs in Peru?

Here's a detailed guide to help you understand the Peruvian power plug types, voltage, adapters, and other useful charging tips for a smooth trip. In Peru, you'll most often encounter plug types A, B, and C: Type A: Common in North and Central America, this plug has two flat, parallel prongs.

What type of power outlet does Peru use?

Peru uses three different power outlet types. Expect to find Type A/B, which is common in North America, as well as Type C, which is the standard in most of Europe. The vast majority of Peruvian power outlets will accept either of these three types. However, a rare few outlets only take inputs from a specific region, either Type A/B or Type C.

What is the power supply voltage in Peru?

In Peru, the supply voltage is 220 volts at 60 hertz. For most European devices, as well as in India, Australia and many African countries a voltage of 220 - 250 volts applies, so there will be no problem plugging your electronic

item into a power outlet in Peru.

Do I need a travel adapter to travel to Peru?

No! Americans and Canadians will need a travel adapter and transformer when traveling to Peru. Most device plugs will work with the outlet types A and B in Peru but an adapter will be needed for type C. Also, the voltage in Peru is different from American voltages.
