Power generation from Jamaica s solar power station

Overview

The solar PV facility is expected to generate nearly 400,000 kilowatt-hours of clean energy annually, reducing the NWC's reliance on fossil fuels and lowering carbon emissions by approximately 200 metric tonnes per year.

Power generation from Jamaica s solar power station

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. The renewable energy ...
