Power inverter industry

Overview

The power inverter market is projected to grow from USD 88.5 billion in 2025 to USD 151.3 billion by 2035, at a CAGR of 5.5%. 5 To 95 KW will dominate with a 32.6% market share, while solar pv will lead the application segment with a 28.9% share. What is the global power inverter market size?

Looking to go beyond insights?

Explore our premium consulting services designed to help you gain a competitive edge. The global power inverter market size was valued at USD 46.57 billion in 2023 and is projected to grow from USD 53.49 billion in 2024 to USD 209.74 billion by 2032, exhibiting a CAGR of 18.62% during the forecast period.

What drives the global inverter market?

The global Inverter market is driven by increasing investments in the renewable energy sector. Which is the fastest-growing region during the forecasted period in the Inverter market?

The Asia Pacific region is the fastest-growing market for inverters, emerging as a notably expanding market.

What is the market share of power inverters in North America?

North America, which currently has a market share of 35.3%, is expected to be one of the largest markets for power inverters during the forecast period. The rapid growth of several industries, like IT, IoT, Healthcare, etc., in the region is expected to surge the adoption of power inverters in North America.

What is the power inverter market report?

The report depicts detailed insights on the power inverter industry trends and new growth opportunities. The report identifies the power inverter market growth segments and emerging application areas.

Why is the power inverter market growing?

The heavy usage of UPS is responsible for the constant growth of the power inverter market. Major players are launching new products in the market. For instance, in February 2024, Schneider Electric, a global leader in energy management and automation, launched the Easy UPS 3-Phase 3M Advanced in Mumbai, India.

What is the market share of power inverters in Europe?

Europe, which currently has a market share of 24.1%, is expected to be one of the most significant markets for power inverters during the forecast period. Apart from the growth of various industries, people in this region are generally looking for ways to reduce noise pollution.

Inverter Market is projected to register a CAGR of 16.30% to reach USD 103.21 Billion by 2035, Global Inverter Market Analysis Type, Output Power Rating, End Use, Region , Inverter Industry.

Global power inverter market is projected to reach \$112.7 billion by 2031 from valued at \$68.2 billion in 2021, growing at a CAGR of 5.2% from 2022 to 2031.

Global Power Inverter Market size was evaluated at \$78 billion in 2023 and is slated to hit \$137 billion by the end of 2032 with a CAGR of nearly 6%.

Industry Overview Power inverter market is anticipated to grow at a CAGR of 6.7% during the forecast period (2025-2035). Power inverters are gaining traction across diverse sectors from ...

The global inverter market size was valued at USD 16.3 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 16.0% from 2023 to 2028.

Power Inverter Market Size and Forecast 2025 to 2034
Power Inverter Market Key Takeaways
Advantages of Ai-Integration in Power Inverters
Asia Pacific Power Inverter Market Size and Growth 2025 to 2034
Market Overview
Power Inverter Market Growth Factors
Market Dynamics
Power Inverter Market Companies
Segments Covered in The Report
Asia Pacific led the global power inverter market with the largest market share of 34% in 2024. North America is projected to grow at a significant CAGR during the forecast period type, the 5-95 KW segment dominated the power inverter market in 2024 type, the 100-495 KW segment is expected to be the fastest-growing in the power inverter market during the forecast period.
