# Recommended local inverter manufacturers in Timor-Leste

## Overview

---

Who makes Fimer solar inverters?

FIMER is a well-established Italian-based inverter manufacturer that took over ABB's solar division in early 2020. The company is in the process of revamping many of the ABB-style inverters and is expanding its range of high-quality string solar inverters for residential, commercial and utility-scale applications.

Who makes the best solar string inverter?

We review the best grid-connect solar inverters from the worlds leading manufacturers Fronius, SMA, SolarEdge, Fimer, Sungrow, Huawei, Goodwe, Solis and many more to decide who offers the highest quality and most reliable solar string inverters for residential and commercial solar.

Are string solar inverters a good choice for utility-scale solar farms?

String solar inverters up to and above 100kW are also increasingly popular for utility-scale solar farms due to the advantages of string-level monitoring and ease of servicing compared to central inverters. Below is our list of the most popular 3-phase inverters on the Australian market in the 8kW to 30kW and 30kW to 100kW categories.

Who is Growatt solar inverter?

Growatt entered the solar inverter market back in 2010 and has grown rapidly to become one of the world's largest inverter manufacturers.

Who makes Sungrow solar inverters?

Founded in 1997 by a university professor, Sungrow is one of the largest suppliers of solar inverters globally and a leading Chinese inverter manufacturer. The residential SG range became very popular due to the competitive price, excellent reliability, and good reputation for service and quality.

Should you buy a low-cost solar inverter?

However, considering the higher failure rates of many low-cost inverters and the difficulty of claiming warranties, we recommended investing in a higher-quality unit. As a common saying in the solar industry goes, “the cheapest products will cost you more in the long run”.
