The innovative power cabinet by Cytech is designed to guarantee uninterrupted energy for modern communication systems worldwide. Combining solar, mains, and diesel power sources, it provides a flexible, ...

"Romania can become a European leader in the field of battery manufacturing for electricity storage," said Sebastian Burduja, Minister of Energy. "Through this initiative, we ...

State-owned Hidroelectrica, the largest electricity producer in Romania, wants to install a battery storage system at Iron Gate 2 (Portile de Fier 2) on the Danube.

The funding aims to boost Romania's energy storage capabilities and align with the country's National Recovery and Resilience Plan (NRRP). Four contracts, totaling ...

A EUR50 million project promises to turn Romania into a European energy storage center, thanks to an agreement between US giant Lockheed Martin and Romanian company Sinteza SA.

At the end of November, we will complete the capacity increase at the factory in Cernica. It is a 10-fold increase in capacity, up to 2 GWh. The construction is 80% ready, and the investment ...

Power Backup Services (PBS) has Direct Distribution of AIB Kunstmann products in Romania, Greece and Bulgaria. Interested in any of our products or services? You can contact our ...

At the end of November, we will complete the capacity increase at the factory in Cernica. It is a 10-fold increase in capacity, up to 2 GWh. The construction is 80% ready, and the investment amounted to 270 million euros.

We're starting production this year. Not at full capacity, for the beginning. The official opening will be sometime in April-May.

The German family-owned STIHL Group has officially inaugurated its first battery-only production site in Oradea, Romania. The investment of 125 million euros marks a major ...

State-owned Hidroelectrica, the largest electricity producer in Romania, wants to install a battery storage system at Iron Gate 2 (Portile de Fier 2) on the Danube.

"Romania can become a European leader in the field of battery manufacturing for electricity storage," said Sebastian Burduja, Minister of Energy. "Through this initiative, we have accelerated this process and put ...

This article discusses how grid-scale battery storage is revolutionizing the U.S. power sector by addressing the challenges of integrating intermittent renewable energy sources.
