

## **PDEOZE PowerContainer**

# **Romania power plant energy storage**

## Overview

---

With an estimated capacity of 2,016 MWh, this project will become one of the largest of its kind in Europe, and the €540 million investment promises to benefit both the Romanian energy system and the local battery industry.

## Romania power plant energy storage

---

In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building independent storage facilities. The list ...

Romania expects its overall energy storage to amount to at least 2.5 GW in operating power at the end of 2025, and to expand to as much as 5 GW a year later, local media reported, citing Minister of Energy ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania.
