

PDEOZE PowerContainer

Saudi Arabia home solar system application

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

The heating function is optional

Intelligent BMS

Cycle Life: ≥ 6000

Warranty: 10 years

Overview

Shamsi is a digital portal that helps families throughout the Kingdom make the switch to solar energy, helping them understand the financial and technical aspects of installing panels in their own home.

Saudi Arabia home solar system application

Researchers in Saudi Arabia have identified the best and optimum PV system configurations for the Saudi residential market.

It offers a variety of services for different systems - from Consultation and Design, to Supply and Installation, to Operation and Inspection, as well as Support and Maintenance.

It rigorously examines the cost-effectiveness of distributed solar power in Saudi Arabia, supported by a detailed power generation and economic analysis of grid-tied PV systems.

Researchers in Saudi Arabia have identified the best and optimum PV system configurations for the Saudi residential market.

Our team will support your efforts to fulfil your clients requirements that meet the project's budget, timeline, specifications and standards to ensure an optimized and satisfied project completion.
