Slovenia large-scale power supply side energy storage subsidies

Overview

What does EU state aid mean for Slovenia?

European commission. The European Commission (EC) on Friday approved, under EU state aid rules, a EUR-150-million (USD 161m) scheme in Slovenia that aims to support the expansion of renewable energy, heat and energy storage.

What is the Slovenian energy policy?

The purpose of the measure is to accelerate the deployment of investments in renewable energy production and energy storage, with the aim to foster the transition to a net-zero economy. The Commission found that the Slovenian scheme is in line with the conditions set out in the Temporary Crisis and Transition Framework.

What are the major developments in the renewables sector in Slovenia?

The main developments in the renewables sector include the introduction of the National Energy and Climate Plan and the adoption of secondary legislation, aiming to make Slovenia a climate-neutral society in the coming decades and motivating private finance to invest in projects including renewable sources.

What does the European Commission's €150 million scheme mean for Slovenia?

The European Commission has approved a €150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in line with the Green Deal Industrial Plan.

How many power plants are under the subsidies scheme?

In 2019, electricity production within the subsidies scheme – in the 3,858 power plants with a nominal power of 417MW – amounted to 947.5GW, which is 1% more than in 2018. The subsidies were awarded as follows: High-

efficiency cogeneration powerplants on fossil fuels – EUR 27m for producing 346.4GWh.

Does Slovenia need a feed-in insurance policy?

In May 2020, the Slovenian government adopted amendments to the Rules on Support for Electricity Generated from Renewable Energy Sources and from High Efficiency Cogeneration, introducing the obligation for investors to provide an adequate insurance for the performance of the project applying for the feed-in support.
