Solar Panel Company Services

Overview

Who installs solar panels in New York?

New York State Solar Farm. This solar company specializes in installing Tesla Powerwalls and high-quality SunPower solar panels. It has installed over 4,300 solar systems in New York. Free, No-commitment Estimates According to the Solar Energy Industries Association (SEIA), there are 219 solar installers and developer companies in New York.

Who is a local solar company?

We are a local company with offices across Long Island and New York City. Since our entire team is locally-based, friends and neighbors will design, install, and service your custom solar system. Going solar doesn't have to be confusing. Our Learning Center was created to live up to our motto - making solar simple.

How do I find a solar installer in New York?

A unique challenge of finding a solar installer in New York is that most solar companies only have locations in and around New York City. Availability is extremely important for people who don't live in the city or on Long Island. Tesla scores well in this category, with more locations spread throughout the state than any other installer.

Why should you install solar panels in New York?

High taxes and heavy traffic aren't the only problems that New York residents deal with. Frequent power outages, the highest electricity rates in the nation, and unhelpful utility companies are a fact of life here. At least, they were before solar became so affordable. Solar panel installation in New York will give you true energy independence.

How many solar companies are there in New York?

According to the Solar Energy Industries Association (SEIA), there are 219

solar installers and developer companies in New York. All of this competition can make it challenging to know which solar company is right for your home, so use these tips to help you with your decision:.

Who makes SunPower solar panels?

SunPower installs solar panels made by its sister company, Maxeon. The panels Maxeon makes have the highest efficiency ratings available on the residential market, which makes them perfect for squeezing every last drop of energy out of New York's limited sunshine.
