# Solar battery energy storage in Egypt

## Overview

---

Egypt is adding a large battery to store solar energy from its Kom Ombo plant in Aswan. The project is being developed by AMEA Power and supported with funding from the International Finance Corporation, or IFC.

Egypt is adding a large battery to store solar energy from its Kom Ombo plant in Aswan. The project is being developed by AMEA Power and supported with funding from the International Finance Corporation, or IFC.

Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh battery storage project in Egypt. CEO Terje Pilskog says it is Egypt's first hybrid solar-plus-battery project. Norway's Scatec has signed a 25-year PPA with Egyptian.

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD-denominated 25-year Power Purchase Agreement (PPA) with the Egyptian Electricity Transmission Company (EETC), backed by.

The Egyptian Electricity Transmission Company (EETC) has signed power purchase agreements (PPAs) with two renewable energy developers – Scatec and AMEA Power – to advance large-scale solar and battery storage projects in the country. Norwegian renewable energy producer Scatec has secured a 25-year.

Egypt is adding a large battery to store solar energy from its Kom Ombo plant in Aswan. The project is being developed by AMEA Power and supported with funding from the International Finance Corporation, or IFC. A total of \$72 million in financing is being provided to help build and install a 300.

## Solar battery energy storage in Egypt

---

Norwegian renewable energy producer Scatec has secured a 25-year PPA with the EETC for a 1 GW solar power plant and a 100 MW/200 MWh battery energy storage ...

Egypt's government has signed contracts with developer AMEA Power for two large-scale battery energy storage projects, the country's first.

Egypt's government has signed contracts with developer AMEA Power for two large-scale battery energy storage projects, the country's first.

On completion, it will be the first integrated solar photovoltaic and battery storage project of this scale in Egypt, and a significant milestone in the country's energy transition. ...

Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh battery storage project in ...

This landmark project combines a 500 MW solar PV plant with a 300 MWh battery energy storage system (BESS), a critical step toward making renewable energy more reliable ...

AMEA Power, one of the fastest-growing renewable energy companies, signs Power Purchase Agreements (PPAs) to develop largest solar PV in Africa and first utility-scale ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar ...

Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh battery storage project in Egypt. CEO Terje Pilskog says it is

Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD-denominated 25-year Power Purchase ...

Egypt is adding a large battery to store solar energy from its Kom Ombo plant in Aswan. The project is being developed by AMEA Power and supported with funding from the ...

Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD ...

On completion, it will be the first integrated solar photovoltaic and battery storage project of this scale in Egypt, and a significant milestone in the country's energy transition. Egypt aims to reach 42 per cent of ...

AMEA Power, one of the fastest-growing renewable energy companies, signs Power Purchase Agreements (PPAs) to develop largest solar PV in Africa and first utility-scale battery energy storage system in ...

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in ...

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in the first half of 2026 and the ...
