# **Solar module manufacturers inventory prices**

## Overview

---

The data in Anza's Q2 2025 Solar Module Pricing Insights Report represents median DG list prices from over 35 module suppliers participating in the Anza platform, which captures over 95% of the U.S. module supply. How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

Do PV modules lose resale value?

For historical secondary market PV module pricing from 2020 through 2023, download the 2023 PV Module Price Index from EnergyBin's Resources portal. Overall, the price index shows that new PV modules don't tend to lose resale value in the U.S. secondary market unless their technology is older, such as Legacy POLY modules.

Are solar modules still in a state of negotiation?

In recent times, the price of solar cells on the cost side has been adjusted, enhancing the cost support for modules. However, the demand-side installations continue to decline, and overseas stockpiling has also largely come to an end. It is expected that module prices will remain in a state of negotiation in the near term.

How much does a resale module cost?

Prices jumped each time "Made in America" modules, whether P-Type or N-Type, were introduced into the mix. For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively.

The data in Anza's Q2 2025 Solar Module Pricing Insights Report represents median DG list prices from over 35 module suppliers participating in the Anza platform, which ...

SMM brings you current solar photovoltaic equipment or material prices and historical price charts such as polysilicon prices, silicon wafer prices, battery cell prices, module prices, silicon ...

In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main price trends in the global PV industry.

This ranking is released by Solarbe Consulting, focusing on the production volume, capacity utilization, and production rhythm of Chinese PV module manufacturers. It utilizes ...

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for ...

This ranking is released by Solarbe Consulting, focusing on the production volume, capacity utilization, and production rhythm of Chinese PV module manufacturers. It utilizes four core indicators--Annual Capacity, ...

Module inventories remain low, and prices are relatively firm. However, as projects in northern region deliveries wind down, module makers will soon face production cuts and price reduction pressure from ...

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

Module inventories remain low, and prices are relatively firm. However, as projects in northern region deliveries wind down, module makers will soon face production cuts and ...

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the ...

NREL conducts detailed supply chain analysis for specific photovoltaic module technologies. These analyses include production locations, supply chain risk and costs, and ...

Given the low inventory levels at module manufacturers, prices may continue to rise in the short term. However, once the delivery peak passes, a rapid price correction is also possible. ...

See a list of solar modules with U.S.-manufactured cell options in a few clicks within the Anza platform. You can quickly see list pricing information and gain access to all the ...

SMM brings you current solar photovoltaic equipment or material prices and historical price charts such as polysilicon prices, silicon wafer prices, battery cell prices, module prices, silicon powder prices, trichlorosilane prices, ...
