# Solar panels in Southern Europe

## Overview

---

Which European countries have the most solar PV markets in 2024?

Spain SolarPower Europe has unveiled the top 10 solar PV markets for 2024, with Spain maintaining a leading position in Europe. In 2023, Spain installed nearly 9 GW of solar capacity, a 5.8 percent increase from 2022, solidifying its status as the second-largest solar market in Europe after Germany.

How big is the Europe solar PV market?

The Europe solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing focus on green energy and net zero initiatives.

Who are the top 5 solar companies in Europe?

The top 5 players in the industry include LONGi, Trina Solar, Jinko Solar, First Solar and Risen. The European solar market includes a mix of global players and strong regional companies. The leading firms range from solar module manufacturers to project developers, EPC contractors, and operators of solar assets.

How many solar panel manufacturers are there in Europe?

Europe is home to a large number of world-class solar panel manufacturers. In the following section, we provide an overview of 59 leading manufacturers, all of which are contributing significantly to Europe's renewable energy landscape.

Who makes the most solar panels in Europe?

In particular, it is the largest European brand of solar panels. By the end of 2015, REC had been able to produce around 20 million solar panels and about 5 GW of clean energy. That number is enough to power almost 8 million people at home.

Who are Europe's leading solar manufacturers?

In the following section, we provide an overview of 59 leading manufacturers, all of which are contributing significantly to Europe's renewable energy landscape. From established companies such as Primroot.com and HUAWEI to innovative newcomers, these manufacturers represent the cutting edge of solar technology.
