# Taipei Communications 5G Base Station

## Overview

---

Who has 5G coverage in Taiwan?

Chunghwa Telecom's 5G network extended furthest across Taiwan, at 97.6% of locations with 5G coverage during Q2-Q3 2023. Far EasTone followed with 88.9%, and Taiwan Mobile with 85.6%. GT and T Star have an almost equal 5G footprint, reporting 49.7% and 49.0% respectively.

Will Chunghwa Telecom bring 5G to Taiwan?

Chunghwa Telecom sign. (CNA photo) TAIPEI (Taiwan News) — Chunghwa Telecom announced Wednesday (Sept. 11) it will partner with Nokia to bring 5G download speeds up to 2.34 Gbps to Taiwan. According to a Chunghwa press release on Wednesday, the partnership will use Nokia's AirScale radio base stations.

When did 5G start in Taiwan?

Taiwan rolled out its 5G network in 2020, with Chunghwa Telecom being the first operator to introduce 5G services in July of that year. Since then, Taiwan has experienced significant growth in mobile performance, particularly in 5G performance, compared to other countries across the globe.

How fast is Taiwan's 5G network?

In Q3 2023, Speedtest Intelligence® data revealed that Taiwan's 5G network had achieved a median download speed of 263.35 Mbps, outperforming its regional counterparts, including Vietnam (257.95 Mbps) and China (245.94 Mbps).

Does Taiwan have a good 5G network?

Taiwan's 5G network performs well compared to other countries in the region. In Q3 2023, Taiwan's 5G network had a median download speed of 263.35 Mbps, outperforming other countries in the region, such as Vietnam, China, Hong Kong, the Philippines, and Japan. Chunghwa Telecom leads the way in

terms of 5G download speeds.

What is 5G carrier aggregation (CA)?

The stations will employ 5G Carrier Aggregation (CA) technology, which includes the industry's largest continuous 3.5 GHz and 2.1 GHz spectrums. The company said it plans to deploy Nokia's latest base stations in densely populated areas across Taiwan to further high-speed mobile services, per CNA.
