Tender for 5G communication base stations

Overview

How many 5G base stations does China Mobile Need?

The CBN/China Mobile tender requests bids for 480,397 5G macro base stations in the 700 MHz band which is roughly equivalent to the number of 2.6 GHz base stations already deployed by China Mobile. Based on past big 3 (China Mobile, China Telecom, China Unicom) tender results, Huawei and ZTE are expected to win approximately 85% of the business.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.

Who won China's largest wireless base station tender in 2023?

(Yicai Global) June 12 -- Huawei Technologies has gained over half of the procurement of China's largest fifth-generation wireless base station tender this year organized by China Mobile. The telecoms giant scored over 50 percent of the total of the major mobile network operator's centralized procurement program in 2023, The Paper reported today.

Who will win China 5G contract?

Based on past big 3 (China Mobile, China Telecom, China Unicom) tender results, Huawei and ZTE are expected to win approximately 85% of the business. That would leave only 15% for Ericsson or other well known 5G base station vendor, but probably NOT Nokia which was shut out of the last China 5G contract awards.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications

Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

Who won 5G wireless network equipment centralized procurement contract?

Huawei has won a \$574 million (4.1 billion yuan) 5G wireless network equipment centralized procurement contract. This contract by China Mobile will be carried out from 2023 to 2024. According to the information, this round of centralized procurement is divided into two projects – 2.6GHz/4.9GHz and 700M.
