

## **PDEOZE PowerContainer**

# **The largest battery energy storage power station**

## Overview

---

Elevate is a wholly owned subsidiary of a fund managed by ArcLight. Once completed, the project will be the largest battery storage installation in New York City. The facility will be able to.

Elevate is a wholly owned subsidiary of a fund managed by ArcLight. Once completed, the project will be the largest battery storage installation in New York City. The facility will be able to.

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of households.

Con Edison will place the largest battery system in New York City into service, increasing reliability in northeastern Staten Island just in time for the summer heat season, the company's president said this morning.

When New York City's largest battery storage installation is complete, it will be able to power more than 10,000 households during peak demand periods. It will also be the region's first.

The project will include enough lithium-ion batteries to supply up to a maximum of eight hours of storage capacity at its rated output and will be able to charge and discharge up to 316 MW of power.

## The largest battery energy storage power station
