Tunisia Solar Panel Production Project

Overview

French renewable energy company Voltalia will develop and operate the 350 million Tunisian dinar (\$114 million) solar power project, spread over an area of 200 hectares, under a 20-year power purchase agreement (PPA) extendable by additional 10 years together with national grid.

French renewable energy company Voltalia will develop and operate the 350 million Tunisian dinar (\$114 million) solar power project, spread over an area of 200 hectares, under a 20-year power purchase agreement (PPA) extendable by additional 10 years together with national grid.

For an investor exploring Tunisia's energy sector, the nation's ambitious goal of generating 35% of its electricity from renewables by 2030 presents both a challenge and a significant opportunity. The country's 'Plan Solaire Tunisien' (PST) is driving immense demand for solar photovoltaic (PV).

Construction on Tunisia's 130 MW Segdoud solar photovoltaic (PV) power plant is set to start in the second quarter of 2025. Image for illustration purposes. Tunisia: Construction on Tunisia's 130 MW Segdoud solar photovoltaic (PV) power plant under the public-private partnership (PPP) model in.

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, Toyota Tsusho and Scatec. Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a.

The largest photovoltaic project in Tunisia's industrial sector is nearing completion in the Bir Mcherga industrial zone in Zaghuan. According to project officials, the unit is scheduled to begin operations in February 2026, marking a major milestone in the country's energy transition toward.

Construction of Tunisia's Kairouan solar project is progressing rapidly, surpassing 82% completion as of September 2025. Senior officials, including Secretary of State for Energy Transition Ouael Chouchene, STEG CEO Tarifa Faycel, Kairouan Governor Dhaker Bargaoui, and Almud Weitz from the

World.

Tunisia has awarded four new solar power projects to international companies for the production of 500 megawatts of electricity as part of a drive to expand the share of renewable energy in its mix. Tunisia's industry, mines and energy minister Fatima Chiboub signed the deals this week with.

Tunisia Solar Panel Production Project

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW. France's Qair International will build a 100 ...

This landmark project will be the first large-scale privately financed grid-connected solar independent power producer in the country and will support the government of Tunisia's ...

The Kairouan project forms part of Tunisia's broader plan to deploy five large-scale solar plants totaling 500 MW across regions like Tataouine, Gafsa, Tozeur, and Sidi Bouzid.

Tunisia has awarded four new solar power projects to international companies for the production of 500 megawatts of electricity as part of a drive to expand the share of renewable energy in its mix.

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, ...

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW. France's ...

The Tunisian government has granted licenses to four PV projects with a combined

capacity of 500 MW. The selected developers are Qair International, Voltalia, Toyota Tsusho and Scatec.

The site covers approximately two hectares and will have a production capacity of 2 megawatts (MW), making it one of the largest solar power producers in Tunisia's industrial ...

Tunisia has awarded four new solar power projects to international companies for the production of 500 megawatts of electricity as part of a drive to expand the share of ...

Tunisia: Construction on Tunisia's 130 MW Segdoud solar photovoltaic (PV) power plant under the public-private partnership (PPP) model in Redeyef, Gafsa Governorate is set ...

This article outlines a strategic framework for establishing a solar module manufacturing facility in Tunisia through a joint venture between a private investor and a state ...

TUNIS, March 24 (Reuters) - Tunisia granted licenses to four international firms to build solar farms with a total capacity of 500 megawatts, together worth 1.2 billion dinars ...
