

PDEOZE PowerContainer

Tunisian solar energy storage manufacturer

Overview

Which solar projects have been approved in Tunisia?

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, Toyota Tsusho and Scatec. Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW.

What are grid-connected solar PV systems in Tunisia?

Grid-connected solar PV systems are recent in Tunisia. Their installation started upon the issuance of Law No. 2009-7, which authorises self-production of electricity from renewable energy sources. Grid-connected solar PV has mainly been implemented through the Prosol électrique programme, initiated in May 2010 by ANME and STEG.

Is Tunisia ready for a large-scale solar project?

It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's total solar capacity reached 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

When will Tunisia get 200 MW of solar?

In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's total solar capacity reached 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA). This content is protected by copyright and may not be reused.

How is Tunisia advancing utility-scale solar?

Tunisia is advancing utility-scale solar through a series of tenders, including

the latest procurement round launched in January 2023. It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025.

Who is TuNur Ltd?

TuNur Ltd is an independent renewable energy, transmission and green hydrogen developer at the epicentre of Europe and Africa TuNur is developing a series of renewable energy projects that will produce low-cost green electrons and molecules in Tunisia for export. Each export project consists of three components: 01. Generation 02. Transmission 03.
