# Türkiye builds solar energy storage system

## Overview

---

Türkiye is eyeing completion of a US\$1 billion clean energy investment agreement with UAE-based renewable major Masdar, focused on developing a 1,100 MW solar power plant with energy storage in the Bor district of Nigde Province. Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

How big is Türkiye's energy storage capacity?

Türkiye's 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Can Türkiye become a regional hub for battery technology?

"We believe Türkiye can become a regional hub for battery technology, and our government is committed to making this a reality," Tokcan said. These efforts will position Türkiye as a leader in energy storage innovation, fostering collaboration and supporting renewable energy goals.

Should energy storage regulations be finalized?

Energy Storage Industries Association (EDEDER) President Can Tokcan noted during a press briefing that finalizing regulations is crucial to accelerating investments. "The draft regulation for energy storage has been published, but the final version needs to be issued urgently.

Feb 24, 2025 · Ihlas Holding has signed a \$244 million agreement with China Energy International and Sungen Solar Energy to develop a large solar energy and storage project in Türkiye, ...

Feb 24, 2025 · Ihlas Holding has signed a \$244 million agreement with China Energy International and Sungen Solar Energy to develop a large solar energy and storage project in Türkiye, strengthening the country's clean ...

Jan 28, 2025 · Türkiye's Renewable Energy Resource Zone (YEKA) initiative continues to expand capacity, with 5.9 gigawatts already allocated and a further 2 gigawatt tender planned for solar and wind in 2025.

Apr 21, 2025 · EVE Energy collaborates with Türkiye's Aksa Power Generation at Solarex Istanbul 2025, presenting high-efficiency energy storage systems to advance renewable integration ...

Dec 3, 2024 · Türkiye is making significant strides toward its 2053 net-zero carbon emissions goal by ramping up investments in energy storage ...

Oct 15, 2025 · Türkiye is eyeing completion of a US\$1 billion clean energy investment agreement with UAE-based renewable major Masdar, focused on developing a 1,100 MW solar power ...

Nov 24, 2023 · Renewable energy project developer Margün Enerji is partnering with OEM Huawei to deploy a 2MW battery energy storage system (BESS) at a solar plant in Turkey. Margün Enerji made an application with ...

Jan 28, 2025 · Türkiye's Renewable Energy Resource Zone (YEKA) initiative continues to expand capacity, with 5.9 gigawatts already allocated and a further 2 gigawatt tender planned for solar ...

Jan 8, 2025 · As a player in new installed capacity, energy storage systems and their supporting battery industry are attracting increasing investment and attention worldwide. It is reported that ...

Jun 30, 2025 · Recent policy reforms, regulatory advancements, and targeted investment incentives have positioned Türkiye's battery energy storage systems (" BESS ") market as a ...

Where does Türkiye invest in energy storage? Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, ...

Nov 24, 2023 · Renewable energy project developer Margün Enerji is partnering with OEM Huawei to deploy a 2MW battery energy storage system (BESS) at a solar plant in Turkey. ...

Dec 9, 2024 · Türkiye's Solar Potential: More Than Just a Sunny Disposition With over 2,700 hours of annual sunshine, Türkiye could power half of Europe if it harnessed solar energy like ...

Dec 3, 2024 · Türkiye is making significant strides toward its 2053 net-zero carbon emissions goal by ramping up investments in energy storage systems according to Türkiye daily. The ...
