## Overview

---

How can a solar carport be simplified?

By specializing in parking lot and drive area coverage, we can simplify your carport project by configuring one of our solar ready carport styles or provide design services to develop a custom solar carport solution for your next renewable energy project.

Who makes solar carports?

The team at Parasol pioneered the design and engineering of solar carports more than 15 years ago. To date, we have delivered 350 MW of solar carport projects for municipalities, large transit authorities, federal government agencies, corporations, K-12 schools, colleges and universities, retailers, automotive centers and more.

Who is carport structures?

Drawing from over 40 years of experience in steel carport design Carport Structures is redefining what commercial carports and canopy structures can be used for. Working together with renewable energy experts and solar developers, Carport Structures has developed a complete line of steel carports specifically for solar energy applications.

Where are parasol carports made?

All Parasol products are manufactured in the USA, using US steel and iron. Parasol carports and canopies are solar structures with a purpose. Our systems generate a lifetime of clean energy, while providing welcome shelter from the elements.

What services does a solar carport provide?

Solar carports provide shaded or covered parking for autos. Project development and Fulfillment services: Site layout and coverage configuration. Architectural design and structural engineering. PV panel analysis - layout,

alignment, orientation and optimization. Project quoting and presentation.

How do I get a quote for a solar carport?

Click the "Get Your Custom Quote" button to get started on a quote for your project. Systems include PE Stamps on carport, canopy and pergola rack systems. US Made Solar Carport Structures qualify for the 30% Federal Solar Tax Credit, making it easier than ever to invest in solar energy while enjoying significant financial benefits.
