# Vietnam 5G Micro Base Station Communications Company

## Overview

---

How many 5G base stations are there in Vietnam?

Illustrative photo. Three major network providers - Viettel, VNPT and MobiFone - have so far deployed around 11,000 5G base stations. —VNA/VNS Photo HÀ NỘI — Vietnamese telecommunications operators are ramping up efforts to build infrastructure, increase user uptake, and commercialise wide-scale 5G services across the country.

How many 5G Base Transceiver Stations will Viettel install this year?

Tào Đức Thắng, Chairman and General Director of Viettel, said the company aims to install 20,000 5G base transceiver stations (BTS) this year, a move expected to boost current data transmission speeds by more than 2.5 times.

How many 5G base stations are there in India?

According to the latest report from the Authority of Radio Frequency Management under the Ministry of Science and Technology, the country's three major network providers - Viettel, VNPT and MobiFone - have so far deployed around 11,000 5G base stations, equivalent to 7.7 per cent of existing 4G stations.

How many 5G base stations will VNPT install this year?

According to Nguyen Anh Dung, Director of Enterprise Customer Division at VNPT, the company is expected to install approximately 20,000 new 5G base stations across the country to enhance network connectivity this year. VNPT effectively deploys Smart Agriculture Solution - ONE Farm. (Photo: VNA).

What will Qualcomm do with 5G in Vietnam & Laos?

From a supplier perspective, Thieu Phuong Nam, General Director of Qualcomm Vietnam, Cambodia and Laos, said that Qualcomm will continue to work with technology ecosystems, mobile ecosystems, including the Government, network operators, and domestic manufacturers to deploy 5G on

a large scale.

Is 5G faster than 4G in Vietnam?

In Vietnam, some 5G tests have demonstrated download speeds of 1 Gbps—ten times faster than 4G in the same locations. Beyond speed, 5G offers ultra-low latency and the capacity to support a vast number of connected devices.
