# **Zambia solar Energy Storage Project**

## Overview

---

Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage in Choma district, southern Zambia. The facility has been touted as Zambia's first solar plant with battery storage.

Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage in Choma district, southern Zambia. The facility has been touted as Zambia's first solar plant with battery storage.

Turkish developer YEO and Zambian sustainable energy company are constructing a 60 MW solar plant with a 20 MWh battery energy storage system in southern Zambia. Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage.

The Ministry of Energy announced that by September 2025, GEI Power and YEO aim to have a 60MWp solar PV and 20MWh BESS project operational in Zambia. This endeavour — requiring an investment of \$65 million — is anticipated to alleviate power shortages in the country. GEI and YEO have established a.

Zambian developer GEI Power and Turkish energy technology firm YEO are aiming to have a 60MWp PV, 20MWh BESS project in Zambia online by September 2025. The project will require US\$65 million of investment and will assist in mitigating power shortages in the country, the Ministry of Energy said.

Zambia is ramping up its renewable energy project pipeline - with at least two major solar projects set to be commissioned this year alongside smaller capacity facilities and another significant plant set for launch in 2026. The Zambia Electricity Supply Corporation (ZESCO) reported recently that.

Arlington, VA - Today, the U.S. Trade and Development Agency announced funding for a feasibility study grant to REV-UP Solar Ventures Zambia (REV-UP)

to support the development of a large-scale solar power project in Zambia's North-Western Province. The project will supply clean, stable electricity.

A mining site in Zambia's Northwestern Province where diesel generators used to roar 24/7 now hums quietly with solar panels and cutting-edge battery systems. This isn't science fiction - it's the reality at Rida Mining's site since [REDACTED]/Sany Silicon deployed its 13MWp solar + 39MWh storage.
